

Harbourage at Braden River CDD February Landscape Report

Turf - Turf herbicide and fertility applied week of 2/20. We will begin rejuvenation for the median areas in March

Shrubs - overall in good health. We will continually remove declining Hawthorne.

Palms - we continually monitor the condition of the Washingtonian palms. No removals in February.

Irrigation - Had some minor issues but overall OK.

Thank you and we look forward to working together to maintain a constantly evolving landscape.

**Steve Sutton**
