

Harbourage at Braden River CDD

March 2017 Landscape Report

Turf - fertility to be applied 3rd week in April.

Shrubs - overall in good health. We will continually remove declining Hawthorne.

Palms - we continually monitor the condition of the Washingtonian palms. No removals in March

Irrigation- we reinstalled the irrigation in the section of Natalie Way where County repairs were made. Overall in good shape.

Thank you and we look forward to working together to maintain a constantly evolving landscape.
